

## Legion Field Day on Dominion Day

The Canadian Legion has made all arrangements for its Field Day and Sports which will be held at "The Butte" on Dominion Day July 1st.

There will be the usual Softball Tournament and sports together with the big attractions on the midway.

The "Butte" is an ideal place for a picnic and both country and town folk are asked to come early, bring their lunches and picnic in the grove. Arrangements have been made to supply coffee at lunch time. Come and get together and visit with your friends.

The admission to the grounds is only 25c and children under 10 years are admitted free.

## Special Prizes Asked For

The prize lists for Didsbury Fair are now on the press and any merchant who wishes to donate special prizes should see the secretary before July 1 so they can be listed in the prize list.

## School Concert at Community Hall

The concert given in aid of the School Fair at Community Hall was very successful both in attendance and the quality of the entertainment provided. The scholars of Rosebud, Grand Center, Neapolis, Jutland and Gore Schools each provided a section of the entertainment and the friendly rivalry added to the zest of the program.

It was unfortunate that Mona School could not be present on account of sickness of many of the scholars.

The secretary of the School Fair was able to bank in excess \$20.00 as the proceeds of the concert.

## Reviews Doings of Legislature

E. P. Foster M.L.A. was greeted by a full house on Tuesday evening when he gave his Didsbury constituents a review of the legislation of the last session.

He claimed that when the government took office they found a depleted treasury and as they were not able to get money externally without joining the Loan Council it was necessary to introduce the Sales Tax which he claimed was a temporary measure. He said that by joining the Loan Council the province would put itself into the hands of the bankers, who would dictate the kind of legislation to be passed, therefore Alberta would have been in financial slavery.

He dealt with the Fuel Oil Act, the Minimum Wage Act, the Recall Bill and the School Act. He said he objected to the compulsory features of the School Act regarding teachers joining the Alliance and the method of collecting fees.

He spoke at length on the question of Prosperity Bonds which, he stated, would be redeemable in two years and upon which a stamp of 1 per cent per week must be attached. The bonds would be issued very carefully, not more than \$500,000 at the start. He stated that he had not met a merchant who would refuse to take the bonds if the wholesaler would receive them. He said that even if the wholesaler refused, it would be no bar as the retailer would be able to return them to the government, who would transfer the credit to the wholesaler.

Mrs. Huget occupied the chair and before the meeting the Didsbury Band played a number of selections.

## Calf Club Organizes.

The annual organization meeting of Didsbury Calf Club was held on Tuesday night at the public school. Officers elected were: President, Douglas Burns; vice-president, Marion Levagood and sec.-treas., Harvey Stevens.

A draw was made for the Ayrshire Calf donated to the club by Mr. Roland Ness of De Winton. Holder of the lucky ticket was Mr. Norman Weber.

Members will convene at the N. S. Clarke Farm for the next meeting on July 2 at 2 p.m.

## Golf Notes.

The Golf Club is negotiating with the Sylvan Lake club for a power mower. If the mower can be purchased it will be a great help in keeping the fairways in good shape and make golfing more of a pleasure.

The card party held at the home of Mrs. McMow proved to be a great success. Honors went to Mrs. Friesen and Jack McCloy. The executive of the club wish to thank the ladies for their efforts in making the party a success.

### NOTICE

A General Community Meeting will be held at the Mountain View Community Hall tomorrow (Friday) evening at 9 o'clock.

## Evangelical Church Notes

The Tenth Annual Session of the Northwest Canada Conference of the Evangelical Church which was held here last week came to a close Sunday night with the appointment of ministers to their fields. The pastor of Zion Church here at Didsbury, Rev. H. J. Wood, was transferred to Calvary Church, Winnipeg.

Other appointments were: Didsbury, Rev. A. S. Caughell; Calgary, Rev. T. Jeeke; Medicine Hat, Rev. H. Senft; Warner, Rev. J. Doerkson; Three Hills, Rev. August Grams; Mayton, Rev. E. Strietz; Vegreville, Rev. J. Ewald; Edmonton, Rev. W. F. Krotz.

The conference was one of the largest since organization here nine years ago. There were about forty delegates and ministers present and a great many visitors. The Sunday crowds taxed the seating capacity of the church to the full.

At the Sunday afternoon mass meeting Rev. S. J. Umbreit, D.D., former Bishop of Europe, spoke on "The Religious Situation in Europe." "I am not alarmed about the religious situation in Europe," he said, "because there has been a spiritual revival there. One of the first statements of Hitler after coming into power was that there would be religious liberty—and he has not receded from that stand. Our preachers in Germany are not interfered with."

Other speakers at the conference were: Bishop E. W. Praetorius D.D., of St. Paul, Minn.; Rev. Carl Heinmiller and Rev. J. R. Neirgarth, D.D., Cleveland, Ohio.

The conference will be held next year at Zion Evangelical Church, Esk, Saskatchewan.

One of the highlights of the Conference was the celebration on Friday evening in honor of Rev. J. S. Finkbeiner, who has served 50 years in the ministry of the church. Rev. E. L. Gishler was chairman of the gathering and Rev. H. J. Holtzman made a presentation to the veteran minister on behalf of the conference. Mr. Finkbeiner was one of the earlier ministers at Didsbury and for a number of years was stationed at Hanna. At present he has charge of the church at Rosthern.

"Spiritual Vision" is the subject of the sermon next Sunday morning. In the evening the pastor will bring the 7th in the series, "Pictures of Jesus."

The Gun Club will hold a shoot on Monday evening next for both traps and .22 rifles.

## Dominion Day Next Wednesday

The stores and business houses will be closed all day next Wednesday, the 1st of July—Dominion Day.

## Sunday School Picnic.

The Knox United Sunday School celebrated the King's Birthday by holding a picnic at the farm of Mr. and Mrs. Bruce Parker east of the Rosebud School. The children and their teachers met at the church and were conveyed by cars and truck to the picnic grounds. The afternoon was spent in games and sports. A picnic lunch was served and the children appeared to have enjoyed a wonderful time.

## Ship Alberta Horses to Perth, Scotland

Fifty-two Clydesdale and Percheron horses have been sent from Alberta to Perth, Scotland.

Gathered by J. Macpherson, Montreal buyer who has been operating in Canada for the past 25 years, the animals brought excellent prices, ranging from \$165.00 to \$250.00 a head. They were contributed by well-known breeders throughout the province.

Some idea of the favorable demand Alberta animals are creating in the Old Country may be obtained from the fact that in addition to the substantial purchase price, freight and charges to destination amount to around \$100.00 a head.

Mr. Macpherson, owner of a barn and feed-lot in Montreal, generally accompanies the overseas shipments to superintend the sale, and on this occasion will be accompanied by William Russell, of Crossfield.

Since May 1 the Montreal buyer has been active throughout Alberta and states he is much impressed with the class of animals obtained. He expects to return for more later.

## Rev. H. J. Wood Goes to Winnipeg

Rev. H. J. Wood, minister of the Zion Evangelical Church was transferred to Calvary Church, Winnipeg by the Conference which was held here last week. He will be succeeded here by Rev. A. S. Caughell, of Warner, Alberta.

Mr. Wood has had charge of the Evangelical Church for five years, coming here from Albany, New York. During his pastorate the old church was destroyed by fire and the present building erected.

## Carstairs Stampede.

Friday, July 3, is Carstairs' big day of the year. The Carstairs Stampede is the biggest affair of its kind put on by any small town in Alberta. The day opens at 10 a.m. with a big parade for which over \$100.00 is given in prizes, followed by a water fight.

The Stampede and Sports start at 1 p.m. and some of the best riders and cowboys in Alberta have entered in the various events.

The day will be rounded out with a baseball game at 6:30 p.m.

## At the Movies.

This Friday and Saturday a musical production, "The Melody Lingers On," will come to the talking screen, introducing the voice of the latest screen "find," George Houston, who sings the Toreador song from "Carmen" and other famous songs. He is supported by Josephine Hutchinson.

Next Wednesday Francis Lederer stars in "The Gar Deception," and is supported by Francis Dee, Benita Hume, Alan Mowbray and Akim Tamiroff.

## A Moral Renaissance

In a world riven with fear and mistrust, with greed, hatred and suspicion rampant between individuals, between economic, political and social groups and between nations, there must be much inward searching of souls, much communing of hearts in an effort to find the cause of all this strife in the hope that thereby a remedy may be found and once again nations may live in peace and people may pursue the paths of progress with hope and confidence in the future.

That there is much travail, seething and unrest at home and abroad no one can gainsay, and until some key has been found which will unlock the gate to peace and prosperity, there can be no assurance of widespread happiness and contentment.

What is this key, millions of people are asking themselves and asking one another as they view with dismay the ruffled waters of a troubled humanity?

Perhaps the answer is to be found in the statement made in the British House of Lords on March 19, 1936 by the Marquess of Salisbury, scion of the famous prime minister of the same name in the late Victorian era, when he said:

"The cause of the world's state is not economic; the cause is moral. . . If I may use a phrase which is common in a great movement which is taking place in this country and elsewhere (The Oxford Group) what you want are God-guided personalities, which make God-guided nationalities, to make a new world. All the other ideas of economic adjustments are too small really to touch the centre of the evil."

If such a statement were made from the pulpit it would probably be regarded by many as more or less of a commonplace, something to be expected from such a source, but when it is made by a peer of the realm in such an institution as the House of Lords of Great Britain, it has more arresting and significant effect and serves to emphasize what might be considered a platitude if uttered by others elsewhere.

The minds of many great leaders are being directed in this channel as is evident from recent utterances of other great men whose words, whether their political or economic creeds are accepted, inspire serious thought and consideration.

A similar idea was expressed about the same time by President Roosevelt of the United States when he said:

"No greater thing could come today to our land than a revival of the spirit of religion—a revival that would sweep through the homes of the nation and stir the hearts of men and women of all faiths to a reassertion of their belief in God and their dedication to His will for themselves and for their world. I doubt if there is any problem—social, political or economic—that would not melt away before the fire of such a spiritual awakening."

Further testimony in support of this sentiment comes from Roger Babson, founder of the Babson Statistical organization, whose prophecies of future trends based on statistical data are regarded as authoritative over the entire continent. Mr. Babson recently said: "I expect a business revival. But only a spiritual awakening among the people can make it enduring."

These and other authorities and leaders in many countries of the world are unanimous in their opinion that before there can be a change in the national and international outlook it is essential that the viewpoint be changed and that, in effect, a moral renaissance is necessary for the national viewpoint can be none other than that of the individuals which constitute it.

It might perhaps be said: What is the use of Canadians adopting an unselfish or a lofty moral viewpoint so long as the peoples of other countries exemplify a diametrically opposed outlook? Such a restricted conception of purpose and duty could only serve to delay the consummation of the peace, concord and prosperity which the great majority desire to see. Reform and improvement must first come from within and spread outwards like the ripples on the water from the cast stone.

Whether one agrees or not with the doctrines of the Oxford Group movement, one cannot but recognize that when they draw attention to the fact that there must first be a change in the individual before there can be a changed national viewpoint, they are hitting the bullseye.

Russia claims to have 1,300,000 soldiers guarding Soviet borders.

## Get Practical Training

### High School In Jacksonville, Florida, Has Splendid Plan

In Jacksonville, Florida, high school boys and girls are getting training for future jobs in the community at the same time they attend school. They go to school part of the day and the other part they spend in the department store, advertising office, broadcasting station, theatre, hotel, tearoom, telephone office, learning practical work right on the job. Since the inauguration of the "Jacksonville Plan" about two years ago, 86 per cent. of the vocational pupils have secured jobs upon graduation, and the plan is spreading to other cities of the south and west. The majority of the boys and girls leaving high school today cannot go to college, yet their training is directed toward that goal. When they apply for a job, the employer asks: "What can you do?" The answer is, "I don't know, but I can try anything." The Jacksonville graduate says: "I have had two years' experience in a bank," or in an auto-mechanic's shop, or any other of the 43 different types of training positions in the community.—Christian Science Monitor.

## Admiral Of Yacht Squadron

### King Edward Has Office First Held By Edward VII.

The King has become Admiral of the Royal Yacht Squadron, perhaps the most exclusive club in the world. Edward VII. was the first holder of the office of admiral, inaugurated at his accession in 1901. The club itself was established in 1812.

A story circulated that the famous royal racing cutter Britannia is to be sunk to spare her the indignity of the ship-breakers yard. However, enquiries showed this report incorrect. The King has given instructions that the sails and rigging of the craft be sold, but the remainder of the equipment is to be stored and no instructions have been given regarding the hull. The Britannia was built in 1893 for Edward VII. when he was Prince of Wales. The famous cutter won 231 first prizes and 129 other awards in 625 races in the course of 43 years of racing.

## World's Only Dwarf Elephant

### Hardly Five Feet Tall But Weighs 1,760 Pounds

The smallest adult elephant in the world arrived at St. Nazaire, France, to make his debut in a French circus. He is nine years old, his name is Auguste, he is slightly under five feet tall, and he weighs the trifling total of 1,760 pounds. Auguste was born a normal elephant, but suddenly stopped growing, and is a dwarf to this day. He arrived in a crate labelled: "Fragile; don't turn upside down."

## Keeps Passenger Log Book

Capt. William H. (Bill) Wincapaw of Boston, veteran Massachusetts aviator, keeps a passenger log book which everyone must sign before going aloft with him. The book now contains more than 50,000 signatures. The most unusual passenger load ever carried by Wincapaw was a group of 11 persons, each of whom was 83 years old.

Crossing the onion and the garlic plants has produced a new vegetable known as the "garlion," said to possess the best qualities of both

## Need More Scholarships

### More Opportunity Required For Bright Students Without Means

Dr. R. C. Wallace, newly-appointed principal of Queen's University, stated at Ottawa that Canada needed more scholarships for her students. Dr. Wallace, president of the University of Alberta, succeeds Dr. W. Hamilton Fyffe, who accepted principality of Aberdeen University.

It should be possible for a student, irrespective of means, if he has the mental ability, to go right through school and college, said Dr. Wallace. Regarding positions for university graduates, Dr. Wallace said: "People to-day are realizing more and more the importance of trying to help the trained person and many businessmen are recognizing this and doing all that lies in their power to prevent the trained person from going to waste."

"Sports have a real value in their correct place," he said. "We must remember that students do not go to the university for sports. That is not why universities were founded."

## SELECTED RECIPES

### HERMITS

1 cup butter  
1 cup sugar  
3 eggs  
1 cup raisins, stoned and chopped  
1 teaspoon each allspice, cinnamon and nutmeg  
2 cups flour  
2 teaspoons Magic Baking Powder  
Cream together thoroughly butter and sugar, then with a wooden spoon work in raisins and spices, then the well beaten eggs, then flour and baking powder, which have been sifted together. Roll out and cut with very small cutter. Bake in moderate oven about 10 minutes.

## May Live In Palestine

### Hali Selassie Is Considering Palace On Mount Of Olives

A palace on the Mount of Olives built by an emperor now in exile may become the permanent home of another fugitive sovereign.

Hali Selassie, who fled before the Italian armies, may make his residence in the Kaiserinhof palace built by Kaiser Wilhelm II. for his wife, the Empress Augusta Victoria, after their visit to Jerusalem at the end of the last century, it was reported. At that time Palestine was part of the Turkish Empire.

The Negus recently visited the palace, which is now a monastery.

## Needed Larger Shoes

A pair of size 39 shoes, costing \$88 was made in Findlay, Ohio, for Robert Wadlow, the 18-year-old giant of Alton, Ill. The shoes, probably the largest ever made, were returned, however, because, Wadlow said, they "pinched" his feet.

## Was Noted Explorer

### Harry Whitney, Of New York, Dies In Montreal Hospital

Harry Whitney, of New York, noted explorer and big game hunter, died in hospital at Montreal recently. He was born in 1873.

In 1908 and 1910 he was the centre of a controversy about discovery of the north pole. Mr. Whitney had gone north with Admiral Peary, and in 1909 both Admiral Peary and Dr. Frederick A. Cook returned from the Arctic and both claimed discovery of the north pole.

Doubt was cast on Dr. Cook's claims, and Mr. Whitney entered the controversy. He said he had gone hunting while with the Peary expedition and met Dr. Cook, who left instruments, clothing and other effects with him which Whitney cached.

He said Peary refused to take them aboard his vessel, the Roosevelt.

When the controversy broke it was intimated Mr. Whitney had destroyed Cook's records or had purposely left them behind. Mr. Whitney made only one statement, that Dr. Cook had told him of reaching the north pole and had sworn him to secrecy.

Mr. Whitney returned to the Arctic in three successive summers and continued to be a member of parties which went to the Arctic with Bartlett until 1930.

## Reproduction Of Old Shop

### Merchandise Of Century Ago Shown In New York

An American company 100 years ago made a pair of silk stockings for Queen Victoria. They are on exhibition in a Fifth Avenue, New York shop, with proceeds going to the Fresh Air Fund. The shop is a reproduction of a store opened in 1827, and is furnished with counters, desks, a safe and a stove, some of which were used in the last century. Merchandise of 100 years ago is displayed.

Among the attractions on exhibition are the embroidered silk wedding hose worn by a bride in 1847 and a pearl and gold leaf handbag made of fabric from a priest's robe in the 16th century.

## Known As Electric Man

### English Farmer Can Take 150 Volts Without Feeling It

Invalided out of the British army as a hopeless cripple after an attack of rheumatic fever, T. Lintott, a farmer of Teynham, England, has become known as "the electric man." When making repairs he never bothers to disconnect the wires. He can take 150 volts without noticing it. After leaving the army he threw away his crutch, mounted a motorcycle and learned to ride unaided. Since then he has not needed the crutch.

Warehouses at Calgary, Edmonton, Regina and Winnipeg

## Evidence Of Discovery By Norse Of This Continent 500 Years Before Columbus

Theory that an ancient Norse explorer reached the Gulf of St. Lawrence more than 500 years before Columbus made his landfall far to the south, was contained in a paper read before the historical section of the Royal Society of Canada by Col. Wilfrid Bovey of McGill University, Montreal.

Col. Bovey, recapitulating evidence of Norse discovery contained in ancient accounts, including the saga of Eric the Red, in the light of new evidence concluded that Bjarn Herjulfson sailed from Iceland about 986 and was driven far south by the wind, missing Newfoundland and entering the Gulf of St. Lawrence through Cabot strait.

After reaching Prince Edward Island, on which he did not land, Col. Bovey suggested, Herjulfson sailed north through the straits of Belle Isle and landed at the southern tip of Greenland.

He suggested also that evidence of old records indicated Lief Ericson, son of Eric the Red, voyaged up the St. Lawrence a considerable distance about the year 1000 and that the country he named Vinland was in that territory at a point impossible to fix at this date.

Col. Bovey said there was evidence to support the belief also that Thorfin Karlsefne and Freydis, a daughter of Eric the Red, reached Vinland about three years later.

### Complete Drainage Tunnel

Project Is Only Second Of Its Kind In The World

Vancouver engineers have completed a 200-foot vertical shaft to take care of the drainage problem at Point Grey. It is the only one of its kind in Canada and the only other in the world is at Boston, Mass.

The project was necessitated by erosion, due to melting snow and heavy rain around the Spanish banks which seriously threatened homes and property.

The shaft, near the University of British Columbia, is spiralled with cement flanged to divert the flow and slacken the tremendous speed the water would attain if allowed to drop 200 feet. A worm's-eye-view gives the impression of dropping through a huge, four-foot rifle barrel, the rifling representing the spiral grooves.

Two large pipes look after drainage water in the district which flows into a circular receiving tank surrounding the shaft. From here the water passes between grids (which act as a sieve against debris) and passes into nozzle-like vents. A 12-foot drop and the water starts its circular route to the bottom.

The centrifugal force built up keeps the water on the flanges, leaving the diameter of the shaft free. A "cushion" of water at the bottom is created by slanting upwards a short section of the run-off pipe thus breaking the force of the water.

### Peculiar Pacific Fish

Had To Obtain Government Permission To Capture Penguins

Specimens of some of the peculiar fish captured in the Pacific ocean are on display at the Bermuda government aquarium, brought to Hamilton, Bermuda, in Vincent Astor's yacht Nourmahal. Louis Mowbray, curator of the aquarium, had charge of the 1,052 varieties, taken during a 62-day voyage from San Pedro, Calif., to the Galapagos Islands in the Pacific and thence to Bermuda by way of the Panama canal.

Twenty-one penguins formed the outstanding part of the vast collection. Curator Mowbray explained the permission of the Ecuador government had to be obtained before capture of these, because the species was being depleted by unnecessary slaughter and activity of sharks.

Steamers are called tramp steamers when they do not belong to any regular steamship company but are operated by individuals and have no regular routes.

### Prevention For Paralysis

Plan To Use Sprays To Curb Spread Of Disease

Plans at the Rockefeller Institute to try a newly discovered method of protecting children against infantile paralysis this summer and fall were announced to the American Medical Association at Kansas City, Mo., recently.

Thomas M. Rivers, M.D., of Rockefeller Institute, one of the foremost virus experts in medicine, told of the hoped for infantile paralysis preventive. The paralysis is caused by a virus, a disease agent too small to be found with a microscope.

Experiments in the past year at Rockefeller Institute and elsewhere have revealed that several simple nasal sprays seem able to prevent entry of the paralysis virus into living bodies. The experiments will be made with these sprays.

"Although the use of vaccines and sera," said Dr. Rivers, "at present offers little of value in the prevention and treatment of poliomyelitis, the results of work with agents of another nature seem to present hope that a method of controlling the disease eventually may be evolved."

"It is now believed that the virus of poliomyelitis enters the brain from the nasal mucous membranes by way of the olfactory nerve. With this idea in mind, a number of workers have conducted experiments with several viruses in more than one host in order to ascertain whether the entrance of a neurotropic virus into the central nervous system can be blocked by the application of simple chemical substances to the mucous membranes of the nose."

A "neurotropic virus" is one which attacks nerve cells. A "host" is the animal receiving a virus inoculation.

Three nasal sprays which seem to block entry of virus were described by Dr. Rivers. One is tannic acid, which protected horses against the virus of encephalomyelitis. Another is sodium alum, which protected mice against the type of encephalitis or sleeping sickness virus, which caused the St. Louis outbreak a few years ago. Alum spraying repeatedly protected monkeys against the human type of infantile paralysis.

### Had Right Viewpoint

John Quincy Adams Believed Body Is Just A House

Do you remember that quaint answer that an ex-president of the United States, John Quincy Adams, gave, at the age of 80 to a friend, whom he met in a Boston street? The friend asked him: "How is John Quincy Adams to-day?" and the answer came: "Thank you, John Quincy Adams himself is well, quite well, I thank you. But the house in which he lives at present is becoming dilapidated. It is tottering upon its foundations. Time and the seasons have nearly destroyed it. Its roof is pretty well worn out. Its walls are much shattered, and it trembles with every wind. The old tenement is becoming uninhabitable, and I think John Quincy Adams will have to move out of it soon. But he himself is quite well, quite well."

### Prints Section In Gaelic

Nova Scotia Newspaper Provides Service Twice Every Week

The Daily Post-Record of Sydney, Nova Scotia, is one of the few newspapers in the British Empire that makes regular provisions for its Gaelic readers. Twice each week it prints a section in Gaelic, and the publishers report that in the two years this practice has been followed the Gaelic pages have grown steadily in popularity. "There are more Gaelic-speaking people in Eastern Nova Scotia," said the Post-Record recently, "than anywhere else in the world outside the Highlands of Scotland."

Britain has paid \$5,379,000,000 in pensions since the beginning of the World War.

### Has Abandoned Literature

Robert Service, Poet Of The Yukon, Turns His Attention To Music

Clement Burns, librarian of the supreme court of Canada, disclosed his old friend, Robert W. Service, poet of the Yukon, had written saying he was turning his attention to music.

Burns, who met the poet in the Yukon while Service was working with a bank, said his friends wrote that he had abandoned literature but that, even though he plays the piano poorly, he has composed some songs and is thinking of publishing them.

The letter, written from Cote-du-Nord in France where Service has made his home, reads in part:

"I seldom think. I don't believe in it. I try to develop vacuity of mind and childlike insouciance. Also to cultivate my capacity for ignorance. I am of the opinion that mental obtuseness is a great factor on longevity. In fact, a certain cheerful idiocy is to be prized."

"I am afraid that now the memories of my Yukon days are faint and far away. The war seemed to blast everything else into insignificance. I saw so much hardship and horror and every second man was a hero; so that the Yukon saga seems relatively unimportant."

### The King's Property

No One Ever Disturbs Swans On Thames River

One of the sights of the upper Thames is the swans which are to be seen floating around gracefully on the surface of the water, often followed by a pair of cygnets. They move about the small boats which frequent these waters fearlessly, for no one disturbs them, as they are regarded as the King's property. As a matter of fact, they are owned jointly by the King, the Vintners' Guild and the Dyers' Guild. Every year in July the King's Swan Masters make a trip over the river and they make a mark on the bird's bill to indicate its ownership. The cygnets, which have been unmarked, are divided among the owners. Persons desiring to own swans may apply and if their application is passed upon favorably they are given a pair. They must prove that they have a suitable place to keep the birds.

### Metal Was British

An interesting revelation, says the St. Thomas Times-Journal, is that the Zeppelin company bought the twisted framework of the British airship R-101 which was driven down by a storm in France some years ago, melted it down and re-poured the metal into the framework of the Hindenburg. So the R-101 flew the Atlantic after all.

Nearly 3,400,000 tickets are being printed for the 1936 Olympic Games in Berlin.

### Home Is Merrier For Lively Terrier

Household Arts by Alice Brooks

Quick Criss Cross Stitches Make Appealing Pillow or Picture

PATTERN 5529

Cute, isn't he—this Scottie pup, and where's the home that wouldn't be merrier for his saucy likeness! We'll wager the young folks will be clamoring for him and the pillow or picture he adorns, long before the last simple cross-stitch is in. Worked in cotton, silk or wool floss in shades of grey with black, he's most appealing. Do his whiskers in outline stitch, and give him a bright bow.

In pattern 5529 you will find a transfer pattern of a dog 10 1/4 x 13 inches; a color chart and key; material requirements; illustrations of all stitches needed.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper 11-12-13, 375 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern—Alberta Liquor Control

## New Venture In Oil Prospecting Indicates Oil Stores Miles Below Surface

### As They Saw It

Young School Girls Pay Visit To House Of Commons

Forty little girls, aged 10 and 11, seated sedately in rows in the visitors' gallery, absorbed what they could hear of the speeches in the House of Commons at Ottawa as part of their education. Afterwards in a bay windowed recess of a parliamentary corridor, they were questioned by their teacher, Miss Margaret McLean.

The girls have been studying "civics" all year and after this trip to give them a general idea of how laws are made by men whose pictures they had seen in the papers, they were keen to show their knowledge.

Did they know who was the prime minister? A dozen hands went up: "Mr. King." The gentlemen clustered around Mr. King were the Liberals. Who were those closest to Mr. King? A hand or two went up. They were the cabinet ministers.

What were the gentlemen doing? One solitary hand went up. "They are making rules for Ottawa." No, that was not quite right, said Miss McLean, they were not making rules for Ottawa but Canada, nine provinces and one territory. And what did they do this afternoon? There was a general silence, then an outburst: "We couldn't hear."

Finally an onlooker asked a question: Did the children think the members looked very clever? The answer, the most unanimous, came with one voice. "No."

### Alberta Receives A Gift

Now Raising German Moorfowl As A Game Bird

Germany has reciprocated Canada's gift of moose and buffalo sent to the Berlin zoo with two pair of European moorfowl.

Alberta Game Department officials believe this is the first time the birds have been brought to the province. The moorfowl were received through G. von Krudner, trapper and game warden, who arranged the shipping of the moose and buffalo.

Mr. Von Krudner said he hoped it would be possible to develop a new source of sport for hunters in several years as the moorfowl multiplied.

The birds have been placed under protection of the Alberta Fish and Game Protection League, and will be housed in Edmonton.

Bananas, introduced into western lands within the last 55 years, are said to have been eaten by the ancient Egyptians, Greeks and Romans.

The mapping of buried shore lines, a new venture in oil prospecting which indicates untouched oil resources five miles below the earth's surface, was described at the International Petroleum Exposition at Tulsa, Okla.

Present deepest American oil wells go down two miles. The new maps, charting the contours of more than 100 different seas which covered parts of what is now the United States from time to time in the last billion years, indicate untold oil resources still within the present two-mile drilling depth limit—and more deeper down.

This new mapping, originated at the University of Tulsa, was described by L. R. Laudon, professor of geology. He said the newest oil-prospector device, the man-made earthquake already has reached its limit. It will continue to reveal the "dome" oil-bearing structures.

But, he said, the greatest resources are not revealed by the artificial quake. These new resources lie just inside the buried seashores charted by the University of Tulsa method.

The shorelines of the ancient seas were fed by erosion with silt and debris. In them lived countless billions of marine animals from the size of pin points up to molluscs, called ammonites, 10 feet in diameter.

As these perished and dropped into the mud, each left at least one tiny droplet of imperishable oil—to-day's petroleum. Subsequent ages buried these shores and turned the mud to stone. Wherever porous stone was formed the oil gathered in the "pools" of to-day.

These ancient shores can be identified by the fossils which the drills bring up. Nearly 1,000 different kinds of these fossils are recorded at Tulsa. They show where the seashores were and date the time when the sea existed. These dried up sea beds are no longer level but tilt at all angles.

### Motors To Replace Horses

Canada Considering Plans To Mechanize Artillery Units

Something suggestive of the principle that "the old grey mare ain't what she used to be" is leading the Department of National Defense to go in strongly for mechanization of its artillery units. The horse as a motive force is disappearing, and it won't be long now before it passes completely out of the artillery picture, authorities at Ottawa predict.

This is what is happening in Great Britain and other countries and the same trend is being followed in Canada, with due regard to the limitation of available funds. There are several hundred field batteries in the country, using horses exclusively. The intention is to use the same guns, but with motors for propulsion.

It is expected that before the end of the session a statement on this question will be made in Parliament, giving details and exploring the possibilities of reorganization.

### Idea Is All Wrong

Age Does Not Always Affect A Person's Ability

Because of the "stupid and insane" phrase "Too old at 45," there are thousands of men in every branch of the professions who will never find employment again, declared the lord Mayor of London (Sir Percy Vincent) at the Mansion House, E.C. He was presiding over an appeal organized by the "Over Forty-Fives" Association, Ltd., and the "Forty-Fives" Housing Society, Ltd., on behalf of unemployed men of more than 45 whose positions placed them out of the unemployment benefit scheme. Sir Malcolm Campbell said that it was impossible to judge people physically or mentally by a mere period of years. Some were old at 30 and others young at 60.

The village of Childerditch, 18 miles from London, England, boasts two new houses in the past 20 years. There are between 60 and 70 inhabitants.

## Calgary's Famous Stampede To Be Held July 6th to 11th

Rated as one of the most colorful  
shows of its kind on the continent,  
the Calgary Exhibition & Stampede  
will stage its 51st annual event from  
July 6th to 11th. This famous  
Stampede annually attracts tens of  
thousands of visitors from all over  
Canada and the United States, and  
the program planned for this year's  
show is exceptionally outstanding.  
From all indications the attendance  
will surpass last year's record, when  
222,808 people visited the exhibition  
grounds.

The opening event Monday morn-  
ing, July 6th, will be the famous  
Stampede Parade, at which it is  
estimated at least 50,000 people will  
be spectators. This procession is  
several miles long and a thrilling  
sight to witness, with hundreds of  
Indians and Cowboys in their pictur-  
esque costumes, Mounted Police,  
Chuck Wagons, and twelve-hundred  
horses. Some twenty bands supply  
the music.

The Stampede itself will be held  
every afternoon, with between five  
and six-hundred entries, including  
the greatest riders and ropers on the  
American continent. All events are  
competitive and include the North  
American and Canadian Champion-  
ship Bucking Horse Riding Contest,  
Wild Steer Riding, Wild Steer  
Decorating, Wild Horse Race, Wild  
Cow Miking, Indian Races, and  
the famous Chuck Wagon Races,  
Running Horse Races—seven races  
each afternoon starting the Saturday  
before the Stampede.

The Exhibition will present more  
than six thousand entries in the  
several departments.

The "Passing Parade" is the title  
of the extraordinary Grandstand  
production to be presented before  
the evening audiences. It is a  
colorful musical review featuring a  
combination of outstanding acts,  
including some of the cleverest  
vaudeville performers in existence.

The Hunters' Paradise, and the  
House of Magic are two outstanding  
exhibits that thrilled thousands of  
visitors last year. These are being  
held over again this year and will  
present several new improvements.

The Grand Livestock Review, held  
on Friday morning of Stampede  
week is always presented to a capac-  
ity audience. Boys and girls, 16  
years or under are admitted free to  
this event. Valuable prizes will be  
presented.

The Old Timers' Reunion, an  
annual event of the Stampede will  
have their headquarters in the log  
cabin on the Exhibition Grounds.

The Midway attraction at this  
year's show will present the Royal  
American Shows with many new  
features and rides.

The Grand Finale of the Stampede  
on Saturday night will present one  
of the most spectacular fireworks  
displays ever shown at an outdoor  
exhibition. This feature alone has  
always attracted a capacity audience.  
Other events of the last night show  
will include the presentation of  
prizes to Stampede champions and  
the march past of Indians in their  
colorful costumes, as well as the  
monster "Passing Parade" stage  
presentation.

## Mountain View Notes

The monthly meeting of Mt. View  
W.I. was held Thursday, June 18  
at Community Hall. A splendid  
report on the district conference in  
Didsbury and the lecture in the  
Hall on June 12 was given by the  
secretary, Mrs. Bessie St. Clair,  
followed by a paper on the "League  
of Nations" read by Mrs. Ellis  
Barnes. It was decided by the  
members to hold a "Grandmothers'  
Day" the third Thursday in July,  
the 16th. Two letters of thanks  
were read acknowledging gifts of  
layettes, and parcels were collected  
for a late member whose home was  
recently destroyed by fire. A social  
hour was spent over the tea-cups and  
the members then dispersed for their  
various homes.

Owing to a slight outbreak of  
German measles the pupils of Mons  
School did not take part in the  
concert in aid of the school fair held  
at Community Hall last Friday eve-  
ning.

Mr. C. Hutchison, of the Prophet-  
ic Bible Institute staff, is to preach  
in Community Hall this Sunday  
evening at 7:30.

Mr. and Mrs. Paul Thomas, of  
Betchton and Mr. and Mrs. Tom  
Towers, of Nisbet, were Sunday  
visitors in the district.

Mr. and Mrs. Henry Penner have  
rented the Johnson Loughheed place.

## Notes . .

from Here, There and Everywhere

Mrs. Harvey Hosegood and baby  
have been visiting relatives and  
friends at Clive for the last week.

Mr. and Mrs. A. Blain, Mr. and  
Mrs. J. Reed, Mr. and Mrs. A. Hogg,  
Mr. and Mrs. L. Oliver, Mr. and  
Mrs. G. Anderson and Mr. and Mrs.  
O. Krebs were Sunday visitors with  
Mr. and Mrs. W. F. Brown.

Mrs. S. F. Brown has her sister  
and husband from England as visit-  
ors for the summer.

Mrs. Dobson, Tom Dobson and  
Miss E. Mann were dinner guests on  
Sunday with Mr. and Mrs. M.  
Campbell.

Mrs. A. Orde and baby spent the  
past week with the former's parents  
at Elkton.

Mrs. Wahl sponsored a very  
successful shower in honor of Mrs.  
Graham (nee Doreen Farrant),  
recent bride. Contests and songs,  
etc., comprised the entertainment.  
A lovely luncheon was served by the  
hostess, after which little Jean and  
Alwyh Krebs drew in a wagon on  
which lay a beautifully decorated  
clothes basket filled with presents  
for the bride.

Wedding bells seem the orders of  
the day for Elkton district.

A farewell party will be held in  
Elkton School in honor of Miss  
Mann, who is leaving the district.  
Miss Mann has been teacher at Elk-  
ton for four years. She is planning  
a trip to Europe and sails on the  
"S. S. Empress of Britain," July 11.  
We all join in wishing her good  
luck and godspeed.

—Duties to commence September 1,  
1936. Protestant teacher with  
experience of music preferred.  
Apply, stating salary, experience,  
and with references.

# FIRST... THE TRUTH

THE same man is a hero to his friend and a ranter to  
his enemy. Opinions differ. Opinions will always dif-  
fer. But an intelligent opinion is possible only when  
all the facts are known. The truth—the facts—the  
news—these are the essentials. You must have them  
to think clearly, to decide intelligently on any question.  
And you need not be without them. News of every  
event of importance, every issue, every angle, is brought  
to you by the press—not just one version, but the whole  
truth as it can be drawn from every available source.

A GOOD newspaper's own expressions of opinion are  
confined to its editorial space. The integrity of its  
news columns is inviolate. They present the discover-  
able facts, uncolored by politics or allegiance to any  
group or faction. Your inalienable right to form your  
own opinion is unprejudiced.

A FREE and untrammelled press—a liberty that is de-  
nied in many other countries—that is what the inde-  
pendent daily and weekly newspapers of Alberta offer  
you. They give a voice to current opinion that is heard in  
high places. They are a perpetual safeguard to the  
freedom and welfare of the people.

YOU OWE IT TO YOURSELF TO  
SUPPORT THE NEWSPAPERS THAT  
SPEAK IN YOUR INTERESTS.

**Alberta Crop Report.**

From Alberta Department of Agriculture.

EDMONTON, June 19 — Heavy rains fell in the west-central and southern areas from June 6 to 9, followed in most districts by occasional light showers. The Edmonton zone and Peace River district had only a few light scattered showers previous to the 15th, when a steady rain of twelve hours or more became general over the whole of the north country. General crop conditions over the province are now very satisfactory, with exception of the east-central portion north of the Red Deer River to the Hanna-Youngstown line, where there has been practically no precipitation in the last two weeks.

Weather conditions continue cloudy and cool throughout the province and higher temperatures would benefit crop development in the centre and north. Light frosts have occurred at a number of points with some slight damage to crops in one or two districts. First hail damage of importance for the season is reported in a restricted area north of Lacombe on the 12th instant, where earlier sown crops suffered considerably.

Summerfallowing is well advanced in the south, though held up for some days in many districts following the heavy rains. Fallowing is now general in the north and all work on the land proceeding normally. Haying of sweet clover and alfalfa has commenced at points in the south, yields of alfalfa being somewhat below average.

**Brief Reports by Districts:**

Medicine Hat: Present moisture supply sufficient, but more needed soon, especially for pasture.

Lethbridge-Carleton: Precipitation 1.08 inches 6th to 9th; alfalfa haying commenced with medium light crop; pasture fair; sugar beets 70 per cent thinned.

Calgary: Heavy rains and showers; all crop conditions favorable including range pasture.

Rockyford: Precipitation almost 3 inches last two weeks and conditions excellent.

Youngstown: Prevailing rains did not visit this district and moisture sorely needed; high winds with dust storms; crop suffering from drought.

Olds: Participated in heavy rainfall week of 7th, 1.75 inches; general conditions good but warmer weather needed.

Red Deer-Lacombe: Over half inch rain week of 7th; good growth but need warmer weather; some hail damage to the north and earlier frost damage heavier than estimated.

Stettler: Conditions rather dry before good rain on 17th; slight frost damage to alfalfa; general outlook now very favorable.

Vermilion-Lloydminster: Generally dry conditions relieved by over an inch of rain on 16th; grain in reasonably good condition, but hay crop will be light; pasture poor.

Edmonton: Almost inch of rain between the 11th and 17th; crop conditions good.

Grande Prairie: Intermittent rains of past week continuing. All crops in good shape.

Grasshoppers are hatching in large numbers over southern and east-central districts, but field-men of the Department have the situation under control, and mixing stations located at strategic points are supplying adequate quantities of poisoned bait. Farmers are lending assistance and co-operation in all districts in applying control measures.

Pasture, though somewhat short on southern ranges, is luxuriant over the province generally, and stock has quite recovered from the effects of the heavy winter. The cattle market continues steady with little change since the Department's last report on June 5. Hog marketings are increasing, especially in the south, with some strengthening of prices.

Steady increase in dairy products continues, with a tendency to slight improvement in price. The egg market is good, with prices holding firm.

Referee: "You landed quite a blow to the champ's arrogance."  
Victor: "Yeah, but it was de sock on de jaw dat knocked him out!"

**Doings of Our Neighbors**

AT OLDS: Five thousand dollars has been provided for by the Federal government for the purchase of a building at Olds for postal purposes. This was among a number of supplementary estimates tabled in the House of Commons Wednesday by Hon. C. A. Dunning, Finance Minister.

**Items of Interest**

The Manitoba legislature was dissolved last Friday and writs issued for a general election July 27th. Nominations will be made July 17. Announcement of dissolution was made by Premier John Bracken, head of the Liberal-Progressive government.

Acceptance of the proposed provincial "prosperity bonds" by the members of the Alberta cabinet as part of their monthly salaries, urged in a resolution before the Ribstone constituency Social Credit convention recently, was not given the support of the delegates. About sixty accredited delegates attended the convention.

## WORLD HAPPENINGS BRIEFLY TOLD

Dame Clara Butt, contralto, who died in January leaving \$197,585, bequeathed \$15,000 to the Royal College of Music.

Consideration of a bill suggesting abolition of hanging as a method of capital punishment was postponed in the House of Commons until another year.

Silver medals for Admiral Richard E. Byrd and his men on the second Byrd Antarctic expedition were voted by congress with house passage of a senate-approved resolution.

An agreement to appropriate \$526,000,000 for the United States navy for the fiscal year beginning July 1 was reached at a meeting of the senate and house of representatives conference committee.

First school in Canada to include a course in highway safety and automobile driving in its curriculum, Amherstburg high school near Windsor, Ont., will launch the course Sept. 1.

Allegations of beating a native servant with thorns were made against Michel Reneiris, a Greek planter, committed for trial at Nairobi, Kenya Colony, on a charge of causing bodily harm to the man.

Arrested on a charge of shop-breaking, Joseph Shalopski, while awaiting trial in Glasgow, ate a number of bolts, a spring, a lens from his glasses, and pieces of metal from the cell furnishings.

Payment of a \$2,600 mortgage saved the home of Mrs. Eugene Field, 80-year-old widow of the poet, from sale under a foreclosure judgment. The cheque was provided by Phi Delta Theta, Field's fraternity.

G. C. Tryon, postmaster-general, announced in the House of Commons a further reduction in trans-Atlantic telephone rates between London and Montreal and London and New York, effective July 1.

## New Theory For Longevity

### Egyptian Thinks Keeping Brain Well Rested Is Help

Learning shortens your life. That is the conviction of a 112 years old man in Cairo, Egypt. Aem Mohamed, a milkman, claims to have just completed 112 years and still milks his goats, and delivers the milk from door to door, as usual, often climbing several flights of stairs. His recipe for life is: Don't drink, don't smoke, don't indulge in pleasure, and, above all, don't tire your brain with learning. Mohamed enjoys three hearty meals daily. Two of them consist of beans, and the third of meat and vegetables. He has married only once. His wife is still alive. Her "baby," their youngest son, is aged 65.

On an average, there are 1,800 thunderstorms in progress in the world at any one moment. These give 360,000 lightning flashes an hour.

## LAME BACK

Gin Pills give prompt relief from backache resulting from deranged kidneys. They soothe and heal irritated tissues and assist the kidneys in their function of eliminating poisonous waste matter from the system.

## Returning A War Relic

### Coast City Sends Back An Exquisitely Carved Font Cover

Responding to a request for return of all relics removed from historic St. Martin's cathedral, Ypres, Belgium, destroyed in 1915 by German gunfire, Victoria has forwarded an intricately carved font cover which stood for several years in Christ Church cathedral in Victoria, B.C.

The Belgian church, noted for some exquisite carvings, was almost destroyed during the war, and many of its most valued pieces disappeared. After citizens of Ypres decided to rebuild the structure, an appeal was sent to all allied and central powers for return of any pieces carried away by opposing troops. Officials report hundreds have already been returned.

The oak font cover, five feet in height, appears to be very old and is elaborately carved by hand. How it found its way to the coast city is not definitely known.

## Fresh Air Seems Scarce

### According To Figures Showing Pollution Breathed Into Lungs

Britons breathe, it has been computed, per breath about 13,000,000 coal-produced particles, 700,000 gasoline particles from automobile exhaust, 37,000 rubber-dust particles, 25,000 tobacco-ash particles. Proponents of greater government efforts for combatting atmospheric pollution use such figures as propaganda, permitting the public to imagine what the inside of their lungs look like.

## Proves His Claim

### Pioneer Resident Says Alberta's First Oil Found 57 Years Ago

Proof that the first crude oil was found in Alberta in November, 1879, 57 years ago, is held by William McCardell, well known pioneer resident of Banff.

Mr. McCardell produced a letter from Joseph Lake, now residing at Invermere, B.C. This letter stated that in November, 1879, he was managing the Carlin and Lake store in Anthracite, near Exshaw. "Billy McCardell and Lafayette French," he states, "brought in crude oil from the mountains. It was sent to Ottawa to be assayed. It consisted of 95 per cent. lubricating oil and five per cent. vegetable matter."

Mr. McCardell also received a letter from Howard Sibbald of Banff, now in California, who stated he was in charge of the Scott and Leeson ranch, 10 miles south of Morley, in 1879. Mr. McCardell and the late Lafayette French brought in samples of crude oil to him and it was tested in a lamp.

Mr. McCardell stated the oil was found near Waterton Lakes. A company known as the Homestake Oil Company was formed with a capital of \$10,000 to develop the finding. Unfortunately a salt water, instead of a crude oil, gusher was drilled in. Then a prairie fire burnt down the derrick and the venture came to an end.

Shortly after the opening of the present century, the Rocky Mountain Development Company drilled a well at Waterton Lakes and the discovery of a considerable quantity of oil was claimed. At the present time a well is being drilled by Oil City Royalties, Limited, in the Waterton district.

## Have Many Telephones

There are 500 people in London who have telephones in their bathrooms. They are doctors, actors and business men. Many subscribers have a telephone in every room, and some even have them in their conservatory.

The last war was to end war. The next war will end everything.

## Gives Talk On Barrie

### Miss Ann Buchan Believes He Is The Greatest Of All Literary Successes

Authors are often a sad disappointment to those who meet them after reading their books, according to Miss Ann Buchan, authoress-sister of the governor-general of Canada, who gave an address on Sir James Barrie at Ottawa. Miss Buchan is known to the reading public as O. Douglas.

Though the applause of the audience belied her words in her own particular case, Miss Buchan spoke of the "chastening experience" of meeting Sir James Barrie "once when I was very young." She said he scarcely spoke one word and then, placing a tea table beside her, remarked: "Most people knock this table over, perhaps you won't."

She said she had found it difficult to associate "this little man" with the author she previously described as a "real Peter Pan, a boy tugging at the skirts of this old word begging it to stop and play with him."

Miss Buchan called Barrie one of the greatest of all literary successes and traced his history by telling amusing anecdotes from his humble home in the small Scottish town. She emphasized his devotion to his mother who, she said, appeared in different guise as the heroine in all his stories. When speaking of his qualities as a friend she told how Capt. Robert Falcon Scott, the explorer, dying in the Antarctic, had written to Barrie asking him to look after his son, Peter. The explorer said in his letter: I have never met a man in my life I loved as well and respected so much.

In speaking of his success as a playwright Miss Buchan laughingly remarked, she had heard that every mail to the Barrie house brought a cheque.

In the course of her lecture the speaker gave in Scotch dialect scenes from Barrie's life and his most widely read books.

## National Museum Urged

### Organization Suggested By Professor At Manitoba University

Dr. A. H. R. Buller, former president of the Royal Society of Canada, urged the organization should strive to promote organization of a national museum, national library and national botanical garden.

Dr. Buller, professor of botany at the University of Manitoba, suggested the society seek to become financially independent of government aid as soon as possible, but expressed the opinion that until it reached a stage where it was self-supporting the annual grant of \$4,500 it receives from the Dominion government should be increased to \$8,000.

## Scorn Electric Devices

### Professional Polish Floors In Russia With Their Feet

One profession in Soviet Russia has successfully resisted the age of mechanization which has eliminated many age-old methods of work.

Floor polishers, who since the time of Catherine the Great have capered, one shoe on and one shoe off, continue to manipulate with the bare foot wax, brushes and polishing cloths. Proud of their profession, many have developed a distinctive dance to impart the final bit of sheen. They successfully have prevented introduction of electrical polishing devices.

## Old Custom Affected

Because Chinese are losing their faith in the efficacy of eggs to prevent a sore back, the poultry industries are seeking a government mandate to proclaim the festival of Lih Hsia, or "beginning of summer" as "national egg eating day." Eggs have been a special food of the festival for centuries. Disappearance of old beliefs, however, is affecting the custom.

## Valuable Gift For Manitoba

Donation to the University of Manitoba of a prized collection of Icelandic books by Arnjotur B. Olsson, of Gimli, Man., has been announced by President Sidney E. Smith. Collected over a long period of years the books, comprising 2,500 volumes, are believed unequalled in any Canadian university.

## Coleman Hot Plate Cooks with Air!

Handiest cooking unit for kitchen, summer cottage, camp... The store of a thousand uses.

- Burns 90% air—45 fuel
- Makes its own gas from gasoline
- Use it anywhere. No pipes nor connections
- Lights instantly. No pre-heating
- Economical. One gallon of fuel operates both burners 15 to 20 hours.

PRICED AS LOW AS \$7.00! One burner and two burner models available. Ask your dealer or write for FREE FOLDER! THE COLEMAN LAMP AND STOVE CO. Dept. W2224, Toronto, Ont.

## YOUR GARDEN

General garden insect enemies are divided into two groups—those that eat holes in the foliage and those that suck out the juices. For the first-named, poison is usually applied, while the suckers are attacked with a burning spray which penetrates. Often when both are present, a combination of poison and something that burns, such as lime sulphur and arsenate, gives the best results. The damage from the biting insects is usually quite apparent but the presence of the other kind is only shown at first by a wilting or withering of the foliage. For sucking pests, chief of which are the aphids or plant lice, spray with whale oil soap, a quarter pound of soap to a gallon and a half of water; nicotine sulphate or "Black Leaf 40," or any other repellent secured from a reliable seed store. When fungus attacks the plants, the foliage usually turns yellow or brown, or white spots like mildew cover the leaves. Fungus is most common in warm, murky weather. Spraying with Bordeaux Mixture or dusting with specially finely ground sulphur is advised. Sulphur dust will also protect hollyhocks and phlox from rust, if applied when the disease first shows itself. An ordinary tin can with the top perforated like a salt shaker makes a good duster. Cut worms which eat through newly set out plants at the base of the stem are poisoned by spreading sweetened bran mixed with Paris Green or special mixtures about the plants.

The more tender sorts of vegetables are beans, tomato plants, squash, cucumbers, and melons. They will not start to grow until the weather and soil really become warm. All these warm weather vegetables prefer rich, open soil and any members of the melon family take special delight in hot, sandy soil, though it must be made rich. There is still plenty of time to make second and third sowings of nearly all standard vegetables such as beets, carrots, corn, beans, etc.; first celery is set out now.

## Wins Efficiency Trophy

### Captain Hosken Awarded Shield For The Fourth Time

Signal honor was paid Captain A. J. Hosken, R.N.R., commander of R.M.S. Empress of Canada, when, at a ceremony on board his ship, at Vancouver, B.C., he and his crew were presented with the Chairman's shield. This is emblematic of superiority on company ships on the Pacific in all matters pertaining to life-saving, including discipline, upkeep and maintenance of life-saving gear, organization with regard to control of passengers, operation of lifeboats, fire drill, and other similar matters.

The shield is awarded yearly, and has been the trophy of efficiency on ships of the fleet since it was first presented in 1929 by Sir Edward W. Beatty. Captain Hosken has now won it four times. He won it in 1929, when he was commander of R.M.S. Empress of Russia, and held it for two subsequent years. Then it went to Capt. L. D. Douglas of R.M.S. Empress of Japan for three years, and now Captain Hosken has won it back. It is the first time it has gone to R.M.S. Empress of Canada, of which Captain Hosken has been in command for the past year.

The presentation was made by K. J. Burns, port manager, during the course of a luncheon on board the ship.

## Want To Fight Like Men

Turkey's young girls, ranging in age from 16 to 20, are ready to fight—and they want to fight like men. In a petition to the Ministry of Education, they asked that military education be given them and that they be treated the same as the boy recruits fulfilling their compulsory military service.

## CROCHET THIS STUNNING THREE-PIECE SUIT

Fashion says "Suits to the fore!"—Alice Brooks says "Crochet's the thing!" So they've gotten together, these two, created and combined Patterns Y5582 and Y5583 for a cool, casual and smart ensemble. You'll wear its jaunty three-piece perfection from the moment it leaves your crochet hook, all Summer long and into the Fall: for afternoons, sports, vacationing, or on trips to town. Ideal in string or yarn. So easy to make, too, for the simple stitch used for the trim smart skirt and swaggy jacket goes with amazing rapidity; the revers and cuffs are contrasted in plain crochet. The sleeveless blouse is in a harmonizing lacy stitch. In pattern Y5582 you will find complete instructions for making the jacket and skirt shown in sizes 16-18 and 38-40; in pattern Y5583, instructions for making the blouse, in sizes 16-18 and 38-40. Each pattern contains illustrations of the garment and of all stitches needed, and material requirements. To get these patterns send 20 cents for each (40 cents for both) in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published
